

Big News! RiaGev is Now Water Soluble and Palm Oil-Free

You asked, BLS listened. RiaGev, our popular NAD booster that is revolutionizing the healthy aging category, is now available in a palm oil-free, water-soluble format.

RiaGev-Water Soluble uses coating-free co-crystal technology, which is a much cleaner, natural process. Plus we've chosen label-friendly Ascorbic Acid (vitamin C) as a carrier.

Clinically proven and multi-patented, RiaGev expands your options for convenient, healthy aging products. It can be used for RTDs, liquid beverages and powders/tablets designed to dissolve in water.

This is exciting because only RiaGev promotes healthy aging, noticeably better quality of life and overall wellness, by increasing Nicotinamide Adenine Dinucleotide (NAD) while simultaneously boosting adenosine triphosphate (ATP) and glutathione (GSH).

We are making it easier than ever for you to use RiaGev to enhance the efficacy of, and demand for, your healthy aging products.

RiaGev-Water Soluble Benefits:

- Fully water soluble
- Suitable for RTDs, liquid beverages and powders/tablets designed to dissolve in water
- Pleasant color
- Easily formulated with flavor for optimal taste
- Clinically proven effective in multiple human clinical trials to simultaneously increase NAD, ATP & Glutathione (GSH)
- Considered one of the more advanced NAD boosters available
- Coating-free means no undesirable ingredients such as sugars, starches or artificial colors
